Pakistan's greatest humanitarian, philanthropist and social activist, Abdul Sattar Edhi, led a simple life dedicated to helping the needy. Following his death on Friday night, tributes poured in for the man unanimously revered as a national hero. He spent his life in service to the people of his country and his passion for helping mankind inspired thousands to follow his lead.

Having bathed, fed and clothed thousands, his skin was left darkened...

Pictorial View of Scout Camp at Sargodha, 13th - 15 July, 2016

by the sun, his broad shoulders weakened by the weight of the thousands he carried, but his bearded face never lost the smile. Edhi was indeed a man made of steel with a heart of gold. He belonged to all of us.

He was the founder and head of the Edhi Foundation in Pakistan. Edhi Foundation runs the world's largest ambulance service and operates free old people's homes, orphanages, clinics, women's shelters, and rehab centers for drug addicts and mentally unstable individuals. He had a vision to establish welfare centers and hospitals to alleviate the pain of those suffering from illness and neglect. The foundation was developed into an organization of ambulances, clinics, maternity homes, mental-health institutions, homes for the physically handicapped, blood banks, orphanages, adoption centers, mortuaries, shelters for runaway children and battered women, schools, nursing courses and hospitals. It is now the largest social welfare network in Pakistan, has undertaken several relief operations in other countries as well.

A team of Balochistan Boy Scouts Association was honoured to visit Edhi Sahab personally when he was hospitalized, and also spend first day of Eid-ul-Fitar 2016 at Edhi Centre Quetta (Balochistan) with the orphanages at Edhi centre. A tribute was also given for his excellent services for humanity and prayers were been offered by the Scouts at Balochistan Boy Scouts Headquarter, Quetta.

On Friday, 15 2016 at PHQ. Sindh Boy Scouts Association organized Condolence Gathering & Candlelight tribute in the Memory of Abdul Sattar Edhi. A number of Veteran Scout Leaders and Scouts took part in Condolence Gathering & Candlelight Tribute. Many of them expressed their sentiments and love towards Edhi.

ADVISORY BY THE MINISTRY OF NATIONAL HEALTH SERVICES
Ministry of National Health Services, Regulations & Coordination has notified for the information of general public that P A M (Primary Amoebic Meningoencephalitis) is a rare disease with mortality rate of greater than 95%. The clinical features of PAM are similar to meningitis; include headache, fever, stiff neck, anorexia, vomiting, altered mental status, seizure, and coma and death typically occurs in 3-7 days. Most Naeglera Fowleri infections are associated with swimming in warm freshwater lakes. Naegleria fowleri can grow in public and private water tanks and pipes, especially with little or no disinfectant. This infection also occurs when people rinse their sinuses through the nose and cleanses their noses during religious practices using contaminated tap or faucet water. For prevention & control it has been advised that it must be ensured that adequate levels of chlororine are maintained in the supplied tap water along with strict monitoring arrangements. Awareness and education in the affected areas be undertaken to educate people on requisite preventive measures. Any of the suspected cases should immediately be reported to health authorities for corrective measures. The updated guidelines for the prevention and control of PAM is available on NIH website: www.org.pk

ADVISORY BY THE NATIONAL INSTITUTE OF HEALTH, ISLAMABAD
National Institute of Health, Islamabad has notified that due to seasonal forecast for monsoon rainfall and floods in different parts of the country during July-September 2016, timely measures should be taken to minimize the occurrence of disease outbreaks during and after floods. It has been urged that the concerned authorities should take necessary preventive measures to avert environmental degradation, water & food contamination and sanitation issues that could work synergistically to increase the incidence of communicable / infectious diseases. The anticipated food & water, vector borne and zoonotic disease outbreaks could only be contained through advance preparedness and preventive measures so as to minimize the morbidity and mortality.

The National Institute of Health has recommended that stockpiling of emergency medicines, antibiotics, Anti Tetanus Serum, ORS, IV Fluids, Anti Rabies Vaccine (ARV), Anti Snake Venom (ASV), Typhoid vaccine along with logistic support must be ensured. Besides this Acute Watery Diarrhoea situation be monitored and response initiated immediately without waiting for lab confirmation of Cholera.
